

**Supplemental Table 1. Linear correlations of hs-TnT**

	<b>ADHF</b>		<b>CHF</b>	
Age (years)	r = 0.138	0.021	r = 0.418	< 0.001
NT-proBNP (pg/mL)	r = 0.480	< 0.001	r = 0.489	< 0.001
eGFR (ml/min)	r = -0.363	< 0.001	r = -0.413	< 0.001

ADHF – acute decompensated heart failure, CHF – chronic heart failure, NT-proBNP - N-terminal prohormone of brain natriuretic peptide, eGFR – estimated glomerular filtration rate, r – correlation coefficient
